Points forts
<p>A comprehensive training program for managers, eligible under the French CPF (Personal Training Account) scheme: acquire new skills in agile team management, take part in engaging hands-on workshops, and earn the</p>

“Managing Teams with Agility” certification.

Certification

This training program is designed to prepare you for the professional certification “Managing Teams with Agility.” Registered in the [France Compétences specific directory](#) under number RS6518, it validates the knowledge and skills you have acquired. To obtain this certification, you will receive an official invitation from our [certification partner Bi'Com](#) within one month after completing the training in order to sit the exam.

Exam Information:

The certification exam consists of a professional role-play based on a real or simulated case. You will be asked to write a document analyzing your current management approach, its consequences, and your proposal for a new management model adapted to the context.

Next, **during an oral presentation before a jury**, you must defend your project, justify the choice of monitoring tools used to respond to performance gaps, and explain the adjustments made to your managerial posture to foster team motivation and engagement.

Modalités d'évaluation

Quiz / QCM
Practical Work
Case study

Pré-requis

To enroll in this training program, you must meet one of the following prerequisites:

- Have initial experience in frontline/people management
- Have a professional project that requires rethinking your managerial approach in response to changing, constrained, or unstable work environments

Public

This training program is designed for:

- Beginner, experienced, or senior managers who wish to acquire or enhance their skills to improve the performance of their team(s).
