

## Certification CTSC : Transformation de la supply chain - ASCM (APICS)

Date and duration
<p>Training code : SUPC004EN          Duration : 4 days          Nombre d'heures : 28 heures</p>
Training with certification
CTSC - Certified in Transformation for Supply Chain (ASCM/APICS)
Body
<p>Supply chain transformation has become an <b>imperative in the face of today's economic, technological, and environmental challenges</b>. It involves increased digitalization, the adoption of new technologies, and the optimization of processes to achieve greater agility and resilience. In this constantly evolving context, training in the latest practices and tools is essential for professionals who wish to effectively drive these changes and seize the opportunities they bring.</p> <p>Our CTSC (Certified in Transformation for Supply Chain) preparation program offers a comprehensive <b>exploration of the key areas of supply chain transformation</b>. You will develop expertise in supply chain transformation strategy, organizational change management, digital innovation, sustainable process <b>optimization, and the adoption of agile operating</b> models.</p> <p>At the end of this 4-day program, you will acquire the essential skills to <b>succeed in the APICS CTSC certification exam</b> (see the Certification tab for more details). You will benefit from in-depth preparation, including real-world <b>case studies, practical exercises</b>, and a detailed understanding of the exam domains to ensure optimal success.</p>
Objectifs
<p><i>By the end of this CTSC 2025 training, you will have achieved the following competencies:</i></p> <ul style="list-style-type: none"> <li>• Understand and apply the fundamental concepts of supply chain transformation to enable its evolution, adaptation, and transformation.</li> <li>• Master supply chain transformation frameworks and best practices.</li> <li>• Acquire the ability to apply systems thinking, strategy design and deployment, leadership, governance, monitoring and analysis, risk management, change management, digital transformation, and continuous improvement.</li> <li>• Transform a supply chain from a cost-driven logic to a value-driven approach, and from siloed structures to an interdisciplinary model, in order to improve competitiveness and profitability.</li> <li>• Effectively prepare for the APICS CTSC (Certified in Transformation for Supply Chain) certification exam.</li> </ul>
Points forts
<ul style="list-style-type: none"> <li>• <b>Certified Expert Instructors:</b> Learn from recognized professionals certified in supply chain management and accredited by APICS, ensuring you receive cutting-edge expertise for your success. Their hands-on</li> </ul>

experience provides you with a concrete understanding of industry challenges and best practices.

- **Autonomous and Effective Preparation:** Gain access to the official CTSC 2025 self-learning platform, which includes digital books and comprehensive online study tools for self-paced learning. This flexibility allows you to consolidate your knowledge and track your progress independently until the exam.
- **CTSC 2025 Certification Preparation:** The courses are aligned with the objectives of the APICS CTSC certification exam. Our package includes the exam fees, the Exam Content Manual (ECM) version 8.0, and the option of a second attempt in case of failure.

## Certification

*This training provides intensive preparation for the Certified in Transformation for Supply Chain (CTSC) professional certification from APICS. A voucher code will be provided at the end of the course so you can schedule your exam.*

### CTSC 2025 Exam Details:

- **Exam type:** Multiple-choice questions (MCQ)
- **Number of questions:** 150
- **Duration:** 3.5 hours
- **Location:** Pearson VUE (online or in person)
- **Language:** English
- **Passing score:** 300 points (on a scale of 200–350)
- **Retake policy:** One additional attempt allowed in case of failure

Our training will provide you with the knowledge and tools necessary to approach the exam with confidence. If you pass the exam, you will earn the CTSC 2025 certification, a global recognition of your expertise in supply chain transformation.
